## Overview

The Kosnic Milo LED battens are replacements for standard ceiling battens. These advanced battens are suitable for all areas, including visually demanding non-transient task areas such as offices and educational premises where users require uniform light to maintain well-being.

## General Information

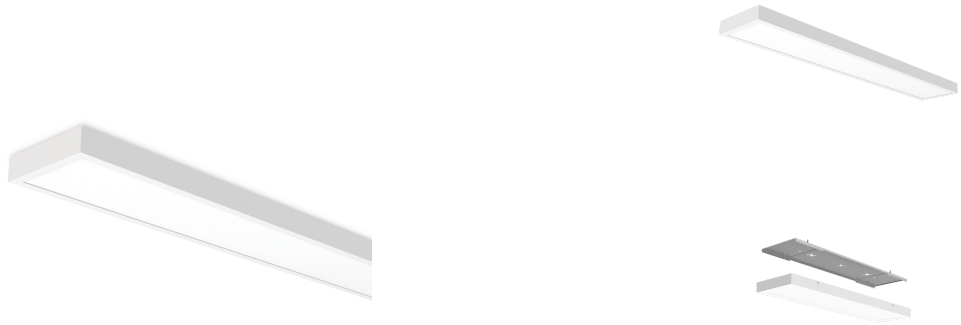

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Materials         | Housing powder coated aluminium, Diffuser polycarbonate |
| Installation Area | Internal                                                |
