Batten UEM

BEM303 BEM303

BEM Emergency Module 3W for Kosnic Batts

- For maintained or non-maintained emergency lighting systems
- Internal LiFePO4 battery for improved lifespan
- Designed for easy installation and battery replacement
- LiFePO4 battery for improved lifespan allowing frequent partial discharge without capacity reduction
- Easy battery replacement
- Patented adaptive current control
- Suitable for LED loads with forward voltage between 30-300Vdc

Overview

The Emergency Module for LED

Batten Luminaires has been designed for easy installation in a range of Kosnic LED batten luminaires. The emergency module will adjust the output within the module's limits to the level required to operate the luminaire and ensure an operation time of three hours.

The battery is replaceable.
